

Extraordinary People

... personalized care

*"The staff at YVMC Pain Management Clinic are wonderful – Dr. Siegel, Mary Echtermeyer, Paula Rapp and Carla Arce provide tremendous emotional support and well-coordinated, extremely competent treatment. They are kind and professional in every aspect of medical care."
— A grateful patient*

Pain Management helps people who have chronic pain or acute injury to maintain function, increase activity level and improve their quality of life.

"We get to know our patients one-on-one, and many are longtime residents of Routt County. It's exciting when we can help someone 'get back in the game' by being able to go to work, go skiing, or do what they want to do in life."

A black and white portrait of Carla Arce, RN, a woman with shoulder-length blonde hair and bangs, smiling warmly. She is wearing a light-colored top and a necklace.
