

Extraordinary People

House Supervisors

Cindie Hill, RN

Jennifer Smith, RN

... personalized care

As House Supervisors, Cindie and Jennifer are responsible for administrative oversight of the hospital on nights and weekends. Jennifer works nights and Cindie works weekends.

Cindie states, "The role of the house supervisor is to get to know the patients and the staff and their needs. We respond to any departments requesting assistance, and ensure that the hospital runs smoothly."

Both Cindie and Jennifer are registered nurses, and between them have more than twenty years' experience in nursing. They both enjoy the fact that each shift is different, and their job is focused on helping patients and staff throughout the hospital.

"I chose to be a nurse because I like working with and helping people. I like my job because I go home knowing that I have affected someone's life in a positive way and that is very rewarding," Jennifer remarks.
