GrandKids Child Care Center

... personalized care

Nancy, Jenica and Virginia are part of the team at GrandKids which provides a safe, loving and caring environment for infants, toddlers and preschoolers.

The GrandKids program teaches children more than their ABC's and 123's. As the first child care center in Colorado to be located in a nursing home, GrandKids nurtures connections between children and elders.

Our teachers say, "Our children accept the residents for who they are. It doesn't matter if they have hearing aids, walkers or wheelchairs; our children are so loving and kind.

"As teachers, we are creating the foundation for them to be leaders when they grow up. We get to be there for the milestones, from a baby's first steps to preparing for kindergarten. The development that happens in five years is amazing."
