

Extraordinary People

... personalized care

Heather Skinner
Medical Staff and
CME Coordinator

The quality and scope of care at YVMC is due in large part to the physicians on our medical staff. Heather oversees credentialing and granting of privileges to physicians and providers with an eye to expertise.

She coordinates physician meetings and continuing medical education, helping doctors keep up with advances in medicine. And she is the go-to person for computerized order entry and documentation, "the wave of the future."

Heather says, "Our community is so fortunate to have such outstanding physicians. The hospital invests in the medical staff and its leadership. Our doctors are published, recognized, and many have been on humanitarian missions. It's a privilege to work daily with our doctors and providers."
