

Extraordinary People

... personalized care

**Holly James,
PTA, WCC**

**Chris Walorski,
LPN, IV, WCC**

**Rebecca Lea,
RN, BSN**

Wound Care Team

Physical and emotional healing is the goal of our wound care team, which is united in using a holistic approach for complex medical issues.

Chris addresses any skin or wound concerns that arise in elders, who may take longer to heal. Holly assesses nutritional, emotional and medical issues to help patients get back to living life without pain. Rebecca spends extra time and gives special "TLC" when teaching ostomy care, helping people adjust to an altered body image.

Our team says, "We love the opportunity to learn every day, from the elders, patients, and staff. Management encourages lifelong learning and additional certification. This is a great place to work, full of caring individuals."
