

Extraordinary People

Jan Fritz, RN, OCN
Director of Cancer Services

... personalized care

"There are no words to thank you for everything you have done for me. You are one of my angels who I will hold in my heart forever. You are a good thing that has come out of this experience. Thank you for your gracious heart and the amazing amount of care." – A grateful cancer patient

Since 1990, Jan has led a compassionate team effort for cancer survivors, from diagnosis throughout treatment. The expert, supportive care provided at YVMC in Steamboat Springs keeps patients close to home whenever possible.

Whether care is provided in Steamboat or at other cancer centers, Jan is available to assist in coordinating arrangements. She also provides vital information to patients and families.

Jan says, "As caregivers and patient navigators we guide people through the journey of their lives. If your family is touched by cancer, I encourage you to call me at 970-871-2464 and I will be your personal resource."
