

Extraordinary People

... personalized care

In her 16 years at the Doak, Joan Lucas has enjoyed helping elders and their loved ones through significant changes in their lives. As a social services coordinator, Joan works with individuals and their families to identify the right placement for long-term care.

Joan says, "I find so many rewards in my work, including meeting with families and residents and getting to know them on a personal level. I also enjoy being a problem solver. I'm able to help people navigate life transitions.

"The Doak is such a valuable resource. It's important for a community to have a place where our elders are able to enjoy life and get excellent care. Working at the Doak and YVMC, I just feel incredibly honored to work with such a dedicated group of people."
