

Extraordinary People

... personalized care

Loretta welcomes the community to YVMC by coordinating meeting space and audio/visual support for non-profit organizations and events as varied as blood drives and federal elections.

Central to the smooth functioning of our senior management team, Board of Trustees and numerous committees, she always finds time to volunteer for the Penguin Plunge, Doc Willett Awards and Fall Into Health Community Health Fair.

Loretta says, "I see firsthand, every day, how the senior management team takes YVMC's mission to heart, to provide excellent healthcare to our communities through safe, personalized and quality services. I'm proud to work in such a compassionate and positive environment."
