

Extraordinary People

... personalized care

Stacey's goal is to ensure that Yampa Valley Medical Center is committed to continually improving safety.

She monitors national trends in patient safety and listens to patient concerns and compliments. Working closely with department managers and employees, she identifies areas where the hospital can improve processes.

Stacey says, "It's great to be part of a team of very talented people who believe in staying ahead of the curve on patient safety. We are fortunate to have a state of the art facility with physicians and staff who are dedicated to providing high quality care. It is because of their commitment that our safety record is so favorable."
