

# Extraordinary People

... personalized care

*Gulya works the night shift in the Patient Care Unit, speedily answering nurse call lights with a cheery smile and helping hands.*

*Patients who are in pain and unable to sit, stand or walk rely on Gulya's assistance. She is alert to individual needs and feels it is essential to offer emotional support and a listening ear to help people truly feel better.*

*Gulya says, "Besides providing physical help I like to encourage patients and coax a smile out of them. I fell in love with this job the minute I started working here. This is my calling. It is very fulfilling to help people and brighten their hospital stay."*
