

Extraordinary People

... making a difference

Jan Fritz, RN, OCN

Director of Cancer Services

"There are no words to thank you for everything you have done for me. You are one of my angels who I will hold in my heart forever, a good thing that has come out of this experience. Thank you for your gracious heart and the amazing amount of care." – A grateful patient

Jan leads a compassionate team effort for cancer survivors from diagnosis throughout their treatment plan. Whenever possible, the supportive care provided at YVMC keeps patients close to home.

"Cancer is a life-changing event, and most people need someone walking beside them. I listen with my ears and my heart, then I teach people how to live with cancer and offer new places of hope."
