

Extraordinary People

... personalized care

Lois loves coming to work each day. Her goal is to make life more comfortable and meaningful for each resident at the Doak Walker Care Center.

Residents and fellow employees value Lois as the “go-to” person throughout the day. She answers the phones, processes physician orders, greets family members and provides care -- all with a warm smile.

Lois says, “When I walk in the front door, I’m always happy to be here. We all do whatever we can to make the day better for our residents. We have developed truthful, humorous and caring relationships. I am so grateful to work with such a skilled and devoted team in an upbeat environment.”

A black and white portrait of Lois Inskeep, a woman with long, wavy hair, smiling warmly. She is wearing a dark-colored top.
