

Extraordinary People

... personalized care

**Kevin Chapman,
RT, (R) (N), CNMT**

**Cynthia MacMaster, RN
Diagnostic Imaging Nuclear Cardiology Team**

Tommy Clark, RT(R)

"Being an irregular heartbeater, I was scared to take the stress test. But Dr. Baker and the nuclear cardiology team made me laugh and feel safe – they were awesome. Would drive from Craig anytime to use YVMC."

– A grateful cardiology patient

The patient always comes first with Kevin, Cynthia and Tommy. With utmost respect and a true team effort, they create an atmosphere of trust and expertise to reduce the apprehension some patients feel.

"Our patients often come back to thank our team," Director Mary Jo Wiedel says. "There are a lot of hugs, handshakes and high-fives in the hallway here. Because once patients are in their hands, they are with family."
