

# Extraordinary People

... personalized care

*Most patients never have the opportunity to meet Pam. Gloved, masked and gowned in blue, she works behind the scenes, ensuring that all materials are ready for surgical cases and preserving a “sterile field” in the operating room.*

*Whether prepping hundreds of instruments for a total joint replacement or reporting for an emergency surgery in the middle of the night, the Steamboat Springs native is proud of her role.*

*Pam says, “It’s important to be there, as part of the team with the nurse, anesthesiologist and surgeon, to provide whatever the patient needs. For me the bottom line is helping the patient. This is still a small-enough town that we really feel connected.”*

**Pam Good, CST**  
*Certified Surgical Technologist*
