

Extraordinary People

... personalized care

Faith McClure, RN
Medical Surgical Unit Director

Tracey Fortson, RN
Family Birth Place Director

Tracey and Faith are proof it pays to lead by example. These two women head two important departments at YVMC, but first and foremost they consider themselves committed nurses.

Together they have 33 years of nursing experience. They also share a passion for quality patient care. Tracey and Faith work together as a team, lending each other expertise and staffing to keep the Medical Surgical Unit and the Family Birth Place running smoothly. They consider team building a priority that leads to better patient outcomes and satisfaction.

Tracey and Faith say, "It's important take care of families like they were your own. We're proud of our staff for making that their own. If you have good relationships with your team, it brings people together, builds trust and puts everyone on the same path."
